Brasfield & Gorrie, LLC has worked with CGLS Architects on two separate projects at Kings Ridge Christian School-The Barbara Adler Academic Center and the Student Center. These projects had very cost effective designs that have the look and feel of first class facilities.

Our teams worked very well together and CGLS, and Bob Sussenbach & Michael Williamson were very responsive to any issues that came up. They treated us with fairness and equity, while still maintaining focus on the owner's best interests.

The drawings were very well coordinated and detailed which lead to minimal changes during the process. Because of this, these projects were both very successful projects for our company.

I would strongly recommend CGLS for any educational projects or institutional projects that you may be considering. I appreciate our relationship with their firm and welcome the chance to work with them again.

Sincerely,
