Re. Letter of Recommendation for CGLS Architects Inc.

This letter is provided for the purpose of recommending CGLS Architects Inc. Mr. Sussenbach and Ms. Tyson and their firm have worked for Fulton County Schools for several decades. Personally, I have worked with them as one of our prequalified Architectural Consultants for the past eight plus years. They have reliably provided professional design services and completed various sized renovation as well as new construction projects successfully.

Mr. Sussenbach and Ms. Tyson have been actively involved in all their projects with Fulton County Schools. Mr. Sussenbach typically works with us to create the vision for our projects. Ms. Tyson is the extremely knowledgeable Architect that executes that vision into a well-coordinated set of construction documents. Their staff actively remains engaged from vision through construction.

This firm based on their performance on Fulton County Schools projects has proven to be a trusted partner on all types of our varied design and construction projects. They are our high school prototype designer as well as one of our selected firms that help us with our renovation projects. CGLS Architects Inc. has provided these design services on time and for competitive fees. Their K-12 expertise helps us create successful projects. We use them as our K-12 experts.

CGLS Architects' K-12 expertise allows them to be an active partner to the school system in developing projects to a successful completion. I prefer to work with firms that make my job easier and CGLS Architects Inc. is one of those firms. Whenever I have an issue to resolve I call Ms. Tyson for her counsel. They are very responsive to project issues and often they proactively resolve issues. When confronted with an issue they always bring it to the table with a suggested resolution. Fulton County Schools implements summer renovation projects which puts great demands on all who participate in the process. CGLS Architects Inc. has proven to be professional and reliable. The lines of communication we have with CGLS Architects Inc. are always open and productive. They have been more than diligent in helping us maintain our project scopes, schedules, and budgets. We currently are using the services of this firm and plan on continuing this professional relationship.

Sincerely

Jacobs on behalf of Fulton County Schools

Eugene A. Burnett, Jr.
Design Manager
