Mr. Robert Sussenbach
CGLS Architects
2500 Cumberland Parkway
Suite 350
Atlanta, GA 30339

Dear Bob:

I wanted to take a moment to let you know that our New South team enjoyed working with you on the GSU Alpharetta Classroom project that recently completed. It is enjoyable to work with a firm that is sensitive to the project requirements; budget, process and the needs of the end user. Additionally, your design is creative and well thought out, and with today's market it is important that the economics of budgeting were taken into account.

What makes CGLS so strong as a designer in this business is that your documents and well thought out design is detailed properly. This allows us as a GC to get quality pricing for our clients. The other crucial aspect is the CA due diligence that your people put into the project. Construction will never be perfect and having a thorough CA process that you exercise over and over again really lends the support toward successful projects. I cannot tell you how much we really appreciate this.

In closing I would like to say that working with the CGLS principals for the past twenty years has been and continues to be a rewarding, enjoyable, and refreshing experience.

We look forward to many future successful projects and if you ever need anything from New South Construction, please do not hesitate to call.

Sincerely,

NEW SOUTH CONSTRUCTION COMPANY

A handwritten signature in blue ink, appearing to read "Huntly Gordon", is written over the typed name and title.
