It is the policy of Gwinnett County Public Schools  
not to discriminate on the basis of race, sex,  
religion, national origin, age, or disability in any  
employment practice, educational program, or  
any other program, activity, or service.

Chapman Griffin Lanier Sussenbach Architects has provided full architectural services for Gwinnett County Public Schools for over 25 years. The projects have included new schools, building additions, and renovations and modifications to existing facilities. We have continued our partnership with them through the years because of their responsiveness and their willingness to take on whatever type of project to help us meet our facility and maintenance needs.

CGLS has completed prototype designs for new elementary schools and new middle schools, and has completed numerous building addition/renovation projects at elementary, middle and high school facilities. Their designs are very functional as well as very attractive, and they are always willing to work within our projected budgets. They are also one of our key firms in our ongoing process of developing and implementing modification/renovation projects for HVAC retrofits, roofing replacements, and other miscellaneous building modifications.

Our experience with CGLS has always been very positive, and Gwinnett County Public Schools intends to continue our relationship with them for any future building program needs.

Sincerely,

Tim Fisher  
Director of Facility Planning  
Gwinnett County Public Schools
