Tucker, GA 30084-6705

Dear Ms. Quillet,

I would like to take this time to recognize the CGLS Team for a job well done on our new Riverwood High School, Roswell High School, and Centennial High School projects. We hired CGLS because of their reputation as 'Education Thought Leaders' and the ability to solve complex design problems.

From the beginning, starting with the early workshops with the Capital Planning staff, administrators, and the community to the final design, CGLS was alongside us in a way that enabled everyone to understand the vision for each school. CGLS worked with the Capital Planning staff and school administrators to address any final concerns they may have. In addition, during the entire design process, we were all engaged which is a testament to CGLS's ability to build consensus among the critical stakeholders.

Also, most importantly sense each school would be in session while construction would be ongoing for multi-years, CGLS had to evaluate and assess what should be included in the scope particular to each phase of construction. CGLS demonstrated upon completion of the design drawings by keeping "construction from instruction".

CGLS created dynamic architecture of lasting value for the school, FCS and the community. We are thrilled with the final design that matches and supports the forward and innovative approach to education. When completed the Riverwood High School, Roswell High School, and Centennial High School projects will be beautiful. CGLS did such an extraordinary and phenomenal job.

Sincerely,

David Knotts
Fulton County Schools
