To Whom It May Concern:

We are working with CGLS on a \$9 million Auditorium and Band Addition at Marietta High School in Marietta, Georgia. A design was formulated based on a budget composed by a previous architect firm.

The initial design exceed Owner's budget. With due diligence, as a team, we were able to design a 26,000 SF auditorium and a 12,000 SF band addition within a \$9 million budget with a reasonable contingency.

Today we are grading the project with a 12 month completion schedule. I personally find that CGLS is a very qualified architect firm with Bob Sussenbach as principle in charge and David Brown as head architect. We anticipate a very successful relationship with a team effort to meet and exceed the owner's expectations.

If I can be of further assistance, let me know.

Sincerely,

A handwritten signature in blue ink that reads 'Rick Torrance'. The signature is fluid and cursive, with the first name 'Rick' being more prominent than the last name 'Torrance'.
